82929-2 Mal. dated 9.2.48.

Sir,

Sub:- Udipi Municipality - Control measures.
Ref:- Govt. Memo No. 90745-47-1 ~~of P.H.~~ d/1.12.47.

I forward herewith a copy of the report of the Municipal Health Officer, Udipi, together with a copy of the scheme for the control of Filariasis in the place. As Filariasis is Prevalent in the place and as the Council is not in a position to take up the measures at its own cost, it is recommended that one half of the expenditure may be given by government as grant. Further, malaria is also prevalent in the place.

for Director of Public Health, Madras 1/2/48.

Encl.
prs/10-2.

Copy of letter Roc.No.H-3749-5/47 dated 21.1.1948 from the Municipal Health Officer, Udipi.

Sub:- Public Health - Udipi Municipality - Malaria and Filaria- extent of - control measures - information furnished.

Ref:- This office Roc.No.H.-3749-3-47 dated 31.x.47.
Your Ref:No. 82929-1, Malaria, dated 9.12.1947.

I am furnishing herebelow the particulars in respect of the Udipi Municipal Area called for in your reference cited above.

I. (a) The following are the statistics of filariasis and malaria cases treated in the Government Hospital, Udipi, during the last three years.

	1945.	1946.	1947.
Filariasis.	11.	15.	60
Malaria.	9425.	4657	1631

Note: Cases of Malaria include those from outside the Municipal area also.

(b) OTHER STATISTICS: Among 1000 persons of Thenkapet ward examined by the Municipal Health Officer, Udipi Municipality, Udipi, 7 persons showed well-established elephantiasis of legs and 1 person showed elephantoid hand.

From practical observation and from the statistics furnished by the Government Hospital, Udipi, it is quite evident that though the cases of Malaria have decreased during the course of the last 3 years, cases of filariasis are definitely on the increase.

Though Filariasis is not highly epidemic in the whole of the town, it is fast gaining grounds in certain parts of the town, namely portions of Thenkapete ward, Paniyadi ward and Kunjibetty ward where it may be considered epidemic. It is therefore necessary to take early preventive measures for the total eradication of filariasis and control of mosquito nuisance before filariasis becomes highly endemic in the whole of the town

Owing to paucity of funds, the Council could not take up any anti-filariasis or antimosquito measures and is not in a position to take up any preventive measures at its own expenses.

The matter was however placed before the Public Health Committee and the Resolution passed by the Committee is enclosed and an early reply from the Govt. is awaited.

The proposals for such antimosquito and control measures for Filariasis are enclosed.

/true copy/

FILARIASIS - MEASURES FOR CONTROL.

Details of the Scheme.

The measures consist of: (a) Antilarval measures.
(b) Anti-adult mosquito measures.

(a) Antilarval measures: Oiling and spraying of drains, cess pools and stagnant water pools with Malariol should form the main stay of this part of the scheme. The length of the drains in this town is about two miles and there are about

500 cess pools attached to residential houses and industrial and other business concerns. Oiling and spraying of them has to be carried on for eight months in a year, after four months of heavy monsoon -season is over. Oiling can be done with the help of mops and where this is not possible spraying can be resorted to.

(b) Anti-adult mosquito measures: This is done by spraying buildings and their immediate surrounding area with 5% DDT.

There are about 3000 residential houses. Some of them are lying in the suburbs of the Municipality where there is no mosquito pestilence. So the number of houses to be dealt with may be taken as 1800 at present. This number may be divided into two groups of 900 houses each and each house may be sprayed with 5% DDT once in a month. The Sanitary Inspector's may be in charge of the supervision of the work in their respective wards

Material and personnel required.	Number.	Rate of pay.	Cost Recurring.	Non-recurring
Coolies.	6	Rs.31/-	Rs.1488 0 0	
Sanitary Peon.	2	Rs.32/-	512 0 0	
Malariol and Diesel Oil.			400 0 0	
DDT 1000 lbs. at Rs.4 per lb.			4000 0 0	
Medium Kerosene Extract (M.K.E)			500 0 0	
Contingencies.			100 0 0	
			7000 0 0	
Knapsack Sprayers.	3			250 0 0
Stirrup Pumps.	3			250 0 0
				500 0 0

Copy of the Public Health Committee's Res.No.2 dated 6.12.1947.

"Letter Ref. 30833-2 Mal. dated 4.6.47 of the Director of Public Health, Madras, stating that the Govt. have under consideration the question of taking control measures in regard to filariasis and requesting to furnish particulars with regard to the nature of the disease in the Municipal area, the annual estimated cost for taking control measures, and the financial position of the Council to undertake any such scheme with or without the aid of the Government and giving further additional information that the Govt. have been requested to consider favourably the question of giving a grant to cover a portion of the expenditure.

Also Health Officers Note dated 14.10.47 25,10.47, 29.10.47 and Commissioner's remarks dated 14.x.47, 27.x.47 and other connected papers.

Resolution: "The Committee recommends that the scheme may be taken up for prevention of the spread of filariasis in the town provided the Govt. bears not less than half the cost of the scheme.

R.No.18789-6 Mal./49 d/23.9.1949.

Sir,

Sub:- Filariasis - Udipi Mty. - Control measures - Proposals.
Ref:- Govt. Memo No. 90705/47-4-El P.H. d/12.9.1949.,

It is seen from the letter received from the Municipal Health Officer, Udipi, that the Municipal Council, Udipi, has agreed to implement partially the scheme of anti-mosquito and anti-filariasis measures in the town and that the Mty. has accordingly implemented the scheme partially. A copy of the Resolution of the Municipal Council agreeing to carry out the scheme in full, has not been received in this office. Hence the Municipal Health Officer, Udipi, has been asked to furnish the same and a final report will be sent to Govt.as soon as it is received from the Municipal Health Officer, Udipi.

Yours faithfully,

for Director of Public Health 23/9/49

In continuation of this office letter R.No.18789-6 Mal./49 dated 23.9.1949, I am to state that the Municipal Council, Udipi, agreed to implement the scheme in so far as it relates to antilarval measures at an estimated cost of Rs.4000/- per annum. A copy of the Resolution No.16 dated 24.9.49 of the Municipal Council, Udipi, is enclosed for information of Government.

p18 ante

p24 supra

2. As the Council has agreed to implement the scheme, at a cost of Rs.4000/- (staff Rs.1848/-, Insecticides, larvicides, solvents etc. Rs.1950/-, equipments Rs.150/- and Miscellaneous contingencies - Rs.52/-), per annum, Govt. may be pleased to accord sanction for the scheme. Only about 3 wards of the town are slightly endemic to filariasis.

3. A grant equivalent to one-fourth of the expenditure may be sanctioned as requested in the letter Roc.No.M-3747-49-4 dated 15.x.1949 of the Municipal Health Officer, Udipi (copy enclosed).

.....

Sub:- Filariasis - Udipi Mty. etc.

....

The scheme framed by the Municipal Health Officer in October 1947 provided for DDT spraying of cess pools and other mosquito breeding places as well as spraying of houses. In view of the lack of funds for taking up both these works and also in view of the opinion of the Regional Malariologist that house spraying was not quite necessary at this stage at public cost, spraying of breeding places alone has been sanctioned by the Council to be taken up and this work is being done as per instructions of the Regional Malariologist. The details of the cost of antilarval measures which the Council agreed to implement is submitted here below.-

Staff:-	1. Public Health Peon on Rs.16/- plus Rs.18/- per month for 12 months.	Rs.408/-
	2. 4 Coolies at Re.1 each per day.	1440/-
DRUGS:	3. DDT.	900/-
and EQUIPMENTS	Malariol 850 gallons at Re.1 per gallon.	850/-
	Sprayers Hudson three at Rs.50/- (Fifty) each.	150/-
	Soap chips at Re.1 per lb.- 200 lbs.	200/-
	Contingencies.	52/-
		Rs. 4000/-

Out of this estimated expenditure of Rs.4000/- Rs.3000/- will be met from council funds and Rs.1000/- is expected as 4th grant from Government under G.O.No.4405 P.H. d/29.12.48.

-x-

Para 4. Anti malarial and anti filaria campaigns

We understand that the Govt is considering a proposal directing all local bodies to undertake anti malarial measures, while the measures are very welcome and long over due, we submit that unless the Govt undertake to finance at least 75 -/. of the cost of the scheme both non-recurring and recurring it may not be possible for this Council to commit itself to work out the scheme. Failure to undertake this scheme for want of adequate financial aid is very undesirable. as it may result in the increase in the incidence of malaria and filaria, involving greater expenditure at a later date. We request you Sir, to consider the question seriously in its financial aspect.

-x-

EAPH
4

Para 4 above. The chairman of the Vellore Municipal Council represents that anti malarial and anti filaria measures are long over due. The D.P.H may be addressed in the matter. A draft memo is submitted for approval.

As regards the financing of the measures the question may be considered having due regard to the financial position of the mofty as and when the scheme is taken up for examination

[Issued as Memo 90 705/47-1. C1 Edn dated 1-12-47] 1214
from the D.P.H 8229 29/42 Mal. 1 dated 19.2.48] 1314

-x-

Please see the Memo to the D.P.H at page 1 c/f and his reply thereto at page 3 c/f. It is stated by the Municipal Health officer, Udipi that filariasis is ~~not~~ prevalent in the town and that in certain parts, namely portions of Thenkapete ward Paniyadi and Kunjibettu wards there is likelihood of its being endemic in course of time. He has drawn up a scheme of anti. mosquito and anti. filarial measures which he considers is necessary for eradication of filariasis and mosquito nuisance in the whole of the town. The details of the scheme and the staff proposed to be employed for the purpose are given at pages 5-6 c/f. 'A' on Taking the Public Health committee's recommendation is that the scheme for the prevention of the spread of filariasis in the town should be taken up by the mal. cl provided the Govt bears not less than half the cost of the scheme. The M.H.O Udipi also states that owing to the paucity of funds the mal council is not in a position to carry out the scheme from its own funds. Ordinarily for anti-malarial measures carried out by local bodies the Govt give, if necessary a grant equivalent to one-third of the actual cost of the scheme. No grants have been granted so far to local bodies for carrying out anti filarial and anti-mosquito measures (nuisance) which are distinct from anti-malarial measures. The D.P.H has circularised all Municipalities and Dt Bds to the effect that the Govt have been requested to consider favourably the question of giving a grant to cover a portion of the cost if they take up anti-filarial and anti-mosquito measures He has submitted proposals separately for giving ~~one~~ fourth grant to those local bodies

where ~~malaria~~ filariasis is not endemic, for their carrying out antifilarial measures, and half grant to those ~~municipalities~~ local bodies where it is endemic. If the Kodipi Municipal area is ~~to be~~ taken as considered to be endemic for filariasis, it will naturally claim a half grant as per the proposals of the D.P.H. The D.P.H has recommended half grant to the Kodipi Municipality for carrying out antifilarial measures. The proposals submitted by the D.P.H in regard to the control of filariasis is under local bodies still under consideration and until ~~such time a decision is reached on them this case may be kept~~ a decision is arrived at ~~decide to give one fourth or half grant for the said purpose, it may lie over~~ till 19.3.48

The proposals in the linked file provide for a half grant to the Kodipi Municipality towards these measures.

19/2/48

E&P.H

Please see the note from page 2 ante and the orders above. In G.O. No 4405 P.H dated 29.12.48 the Govt have passed the following orders:

(1) Local bodies in whose areas filariasis is endemic will be eligible for a grant from Provincial funds to the extent of one third ~~of~~ of the actual expenditure incurred by them on schemes of anti mosquito measures approved by the Govt.

(2) Local bodies ~~whose~~ areas are not endemic for filariasis will be eligible for a grant from Provincial funds to the extent of one fourth of the actual expenditure incurred by them on schemes

schemes of anti mosquito measures approved by the Govt.

In accordance with the above orders the Udipi Municipality will be eligible for a one-third grant for anti-filariasis measures undertaken by it. L.A. may be requested to state whether the finances of the Municipality are such that it can meet its share of the cost of the scheme viz Rs 5000 in 49-50 (Total cost of the scheme is estimated at Rs 7500)

(Total estimated cost is Rs 7500 × 2/3 = Rs 5000)

28/2/49

L.A.

L. A. Department:

Provision is made in the B.E. of Udipi Ml. Cl. for 1949-50 for an expenditure of Rs. 3000 towards the cost of Anti-Mosquito and Anti-filarial measures. The Council is in a position to meet its share (Rs 5000) of the Cost of the Scheme referred to above in 1949-50. With these remarks the file may be returned to E.P.H.

Proceedings of L.A. Dept No. 0317 Fin II/49-1 dt 5.3.49

Please see the L.A. Deptt note above. They have stated that the Udipi Ml. Cl. is in a position to meet its share (Rs 5000) of the cost of the Anti-filariasis scheme in 1949-50. It is not known whether the proposal has been agreed before the Mpl. Council and whether the Udipi Ml. Cl. has agreed so far to carry out the scheme of anti-filariasis and anti-mosquito measures proposed by the M.Ho. of the Municipality. The D.P.H may be requested to consult the Udipi Ml. Cl. and obtain the resolution of the Mpl.

p19cf Govt Memo no 90705/49.5.E, PHd 24.10.49
p22cf from the D.P.H Rc. 18789-8 Mal(2)/49 dated 6/12/49

Please see the memo to the D.P.H at page 7cf and his reply thereto at page 22cf.

To abate mosquito nuisance in Udipi Municipality the M.H.O in Oct '47 prepared a scheme
p5-6cf of* anti mosquito measures estimated to cost Rs 7500 roughly per annum. The scheme contemplated introduction of control measures such as D.D.T spraying of cess pools, other mosquito breeding places and residential houses. As the cost of the scheme was considered to be high and as the M.C. Council could not find funds for carrying out the scheme a representation was made by the M.C. to the Honble Minister for Local Administration in which the M.C. requested that 75% of the cost of the scheme might be met by the Govt. As the Govt had not then laid down any policy in regard to making grants for schemes of anti filarial and anti mosquito measures as district from schemes of anti malarial
Extract at plante p3ante measures no definite decision could be taken. As the M.C. had also not expressed its willingness or otherwise to carry out the scheme proposed by the M.H.O. the
p*7cf D.P.H was asked* to obtain the resolution of the M.C. in the matter.

2 Attention is invited to the D.P.H's letter (at p 22 of) Since received and the enclosure thereto at page 24 of which the mnl cl in its resolution no 16 dated 24.9.49 has agreed to carry out the scheme in so far as it relates to the treatment of cess pools and other mosquito breeding places with the Govt grant. The scheme since taken up by the mnl cl for execution is estimated to cost Rs 4000/- per annum. p 24 of

The Director of Public Health has now recommended that the scheme may be approved by the Govt with reference to the orders issued in Govt no 4405 PH dated 29.12.48 and that a one fourth grant may be made to the mnl cl towards the actual expenditure incurred by it. As the recommendation of the D.P.H is in accordance with orders in the Govt no mentioned above, the scheme may be approved by Govt and one fourth grant may be promised to the mnl cl.... Above para 3, p 22 of (M) A

As regards provision of funds for the payment of a grant to the mnl cl for the above scheme, the remarks of this deptt in the top file may hold good in the present case also. The expn will be met by the grant if sanctions after the receipt of the certificate of the D.P.H, LA+Fin may see no for remarks. top file reduced per municipal B additional appropriation or reappropriation of funds
